1. **Claims 1-26** are allowed.
2. The following is an examiner's statement of reasons for allowance:

With regard to claim 1, the prior art of record fails to anticipate or make obvious a method comprising the steps of "(a) for each pair of the at least three pairs of two adjacent base stations, measuring time difference of signals transmitted between two adjacent base stations of said pair, obtaining an adjusted time difference corresponding to said pair, and obtaining an accuracy of the adjusted time difference; (b) determining a set of all possible paths between said first base station and said second base station, wherein each path of said set of all possible paths comprises at least one pair of two adjacent base stations; and (c) providing weights to the obtained adjusted time differences corresponding to pair(s) of two adjacent base stations included in each path of said set of all possible paths."

With regard to claim 14, the prior art of record fails to anticipate or make obvious a timing system comprising: "a plurality of location measurement units, each for measuring time difference of signals transmitted between two adjacent base stations of said pair, obtaining an adjusted time difference corresponding to said pair, and obtaining an accuracy of the adjusted time difference" and "a mobile user location center for receiving the adjusted time differences, determining a set of all possible paths between said first base station and said second base station, wherein each path of said set of all possible paths comprises at least one pair of two adjacent base stations; and
